TABLE OF CONTENTS

FOREWORD.....	1
WHO GOES INTO BIOPESTICIDES	3
INTRODUCTION	3
AN OVERVIEW OF THE TYPES OF COMPANIES	4
PESTICIDE & PHARMACEUTICAL COMPANIES	5
<i>Reasons for entering the market.....</i>	5
<i>Advantages & Disadvantages.....</i>	6
FERMENTATION COMPANIES	9
<i>Reasons for entering the market.....</i>	9
<i>Advantages & Disadvantages.....</i>	9
NEW COMPANIES	11
<i>Reasons for entering the market.....</i>	11
<i>Advantages & Disadvantages.....</i>	12
<i>Privately funded spin outs</i>	15
<i>Small crop protection companies</i>	16
<i>Commodity producers</i>	16
SUCCESS FACTORS IN BIOPESTICIDES	18
DEFINITION OF SUCCESS.....	18
THE MOST COMMON MISTAKES	18
FOCUS	19
FUNDING	19
<i>Venture capital</i>	20
<i>Corporate funding</i>	22
<i>The sufficiency of money</i>	24
TECHNICAL ISSUES.....	24
<i>Strains of micro-organisms</i>	24
<i>Biologically active compounds.....</i>	26
<i>Maintaining a biopesticide</i>	27
<i>Fermentation</i>	27
<i>Post-fermentation</i>	29
<i>Success in Production.....</i>	30
REGISTRATION	31
MARKETING AND SALES	32
<i>The value of a biopesticide</i>	32
<i>Accessible markets and marketing focus</i>	33
<i>Distribution and sales.....</i>	34
<i>Internal integration</i>	35
PERSONNEL.....	36
HOW TO FIND, DEVELOP AND MAKE A BIOPESTICIDE	38
FINDING A BIOPESTICIDE	38
<i>Screening</i>	38
DEVELOPMENT.....	40
PROCESS DEVELOPMENT AND PRODUCTION	40
<i>The Critical Nature of Production.....</i>	40
<i>Organism Storage.....</i>	41

<i>Laboratory Production</i>	41
<i>Semi-solid Fermentation</i>	42
<i>Semi-solid Fermentation products</i>	46
<i>Submerged Fermentation</i>	49
<i>The Submerged Fermentation Sequence</i>	51
<i>Submerged Fermentation Products</i>	52
<i>In vitro Production of Viral Pesticides</i>	58
<i>In vivo Production</i>	59
PRODUCT RECOVERY	61
<i>Product Recovery from Semi-solid Fermentation</i>	61
<i>Product Recovery from Submerged Fermentation</i>	62
SCALE-UP.....	63
FORMULATION	64
<i>Background</i>	64
<i>Formulation Types</i>	65
<i>UV</i>	68
<i>Bt formulation</i>	71
<i>Conclusions</i>	76
QUALITY CONTROL & LABORATORY TESTING	77
<i>Efficacy</i>	77
<i>Bioassays & Other Tests</i>	79
<i>Alternatives to Bioassays</i>	83
<i>Microbiological Purity</i>	84
<i>Mammalian Safety</i>	84
<i>Physical Characteristics</i>	85
FIELD TESTING.....	85
R & D COSTS	86
MARKETING	88
SELECTING DISTRIBUTORS.....	88
USER EDUCATION	89
ADVERTISING.....	90
MARKETING AND PRODUCTION COSTS	93
<i>Marketing Costs</i>	94
<i>Production Costs</i>	97
COSTS AND RISKS	100
POTENTIAL PRODUCTS BY TYPE OF MICROBE.....	102
<i>Bacteria</i>	102
<i>Fungi</i>	103
<i>Viruses</i>	110
<i>Nematodes</i>	112
INFLUENCES ON THE BIOPESTICIDES MARKET	115
USERS	115
GOVERNMENTS	117
CONSUMERS.....	118
<i>Attitudes towards chemicals</i>	118
<i>Consumer survey results</i>	120
<i>Organic food</i>	121
<i>Chemicals in the environment</i>	124

<i>Development costs - Chemicals vs. Biologicals</i>	125
<i>New Pests & Resistance</i>	126
<i>New Integrated Agricultural Systems IPM/ICP/IFP/LISA</i>	126
THE FUTURE FOR BIOPESTICIDES	130
INTRODUCTION	130
NEW TECHNOLOGY	131
PEST MANAGEMENT	132
DEVELOPMENTS	133
<i>Bacillus thuringiensis</i>	133
<i>Other Bacteria</i>	133
<i>Fungi</i>	134
<i>Viruses</i>	135
THE FUTURE	136
HISTORICAL EXAMPLES	137
AGRICULTURAL GENETICS / MICROBIO (NOW BECKER UNDERWOOD)	138
AGC - REVIEW IN FROM <i>IMPACT AGBIOINDUSTRY</i>	138
<i>Operations and Products</i>	138
<i>Earnings</i>	139
THE HISTORY OF AGC	142
THE HISTORY OF MICROBIO GROUP AND MICROBIO RHIZOGEN	143
ECOGEN	146
1989 OVERVIEW FROM THE 2 ND EDITION	146
1990 REVIEW ARTICLE PUBLISHED IN <i>IMPACT AGBIOINDUSTRY</i>	147
<i>Introduction</i>	147
<i>What Happened?</i>	148
<i>Objectives</i>	148
<i>Products</i>	149
<i>Analysis</i>	149
1992 update	151
THE HISTORY OF ECOGEN	151
1992	151
1993	153
1994	154
1995	155
1996	156
1997 OVERVIEW FROM THE 4 TH EDITION	157
1998	158
1999	158
2000	158
ECOSCIENCE	159
REVIEW IN 1992	159
<i>Strategy</i>	159
<i>Technical developments</i>	159
<i>Analysis</i>	161
THE HISTORY OF ECO SCIENCE	162

1992.....	163
1993.....	164
1994.....	164
1995.....	165
1996.....	165
1998.....	166
1999.....	166
2002 Overview after its demise	166
KOPPERT	168
REVIEW IN 1991 FROM <i>IMPACT AGBIOINDUSTRY</i>	168
History.....	168
Markets.....	169
Koppert Today.....	170
Why has Koppert done well?	170
IN 2002 FROM THE 6 TH EDITION	171
MYCOGEN	173
1989 OVERVIEW FROM THE 2 ND EDITION	173
1992 REVIEW ARTICLE FROM <i>IMPACT AGBIOINDUSTRY</i>	174
Introduction.....	174
Products	176
Collaborations.....	177
Analysis	177
THE HISTORY OF MYCOGEN	178
1988.....	178
1990.....	179
1991	180
1992.....	181
1993.....	182
1994.....	183
1995.....	183
1996.....	184
1997.....	185
NOVO (NOW VALENT)	185
NOVO - 1991 REVIEW ARTICLE FROM <i>IMPACT AGBIOINDUSTRY</i>	185
Review	185
The Move into Biopesticides.....	186
Products	187
Analysis	188
THE HISTORY OF NOVO	189
1991	191
1992.....	191
1993- 1995.....	192
ABBOTT	192
SELECTED SHORT HISTORIES FROM THE 6TH EDITION 2002	196
AEF GLOBAL - CANADA	196
AGRAQUEST - USA	198

BACTEC - USA	199
BIOAGRI - SWEDEN	199
BIOSYS - USA	199
CERTIS - USA	199
EARTH BIOSCIENCES / TAENSA - USA	199
ECOSOIL SYSTEMS - USA	199
EDEN BIOSCIENCE - USA	199
MYCOTECH / LAVERLAM - USA	199
PROPHYTA - GERMANY	199
VERDERA / KEMIRA / LALLEMAND - FINLAND	199

TABLES

TABLE 1	BIOPESTICIDES MADE BY SEMI-SOLID FERMENTATION	46
TABLE 2	FUNGI MADE BY SUBMERGED FERMENTATION	52
TABLE 3	ENTOMOPATHOGENS PRODUCED COMMERCIALY <i>IN VIVO</i> AT SOME TIME.....	60
TABLE 4	CROPLIFE INTERNATIONAL FORMULATION CODING SYSTEM.....	65
TABLE 5	ADVANTAGES AND DISADVANTAGES OF WETTABLE POWDERS	66
TABLE 6	ADVANTAGES AND DISADVANTAGES OF FLOWABLE CONCENTRATES	67
TABLE 7	ADVANTAGES AND DISADVANTAGES OF HIGH POTENCY CONCENTRATES.....	67
TABLE 8	ADVANTAGES AND DISADVANTAGES OF GRANULES	68
TABLE 9	TOP RATED SUNSCREENS FOR VIRUSES AND BACTERIA (FROM BURGÉS).....	69
TABLE 10	PERCENTAGE (%) OF THE TOTAL COST	97
TABLE 11	MAJOR COSTS IN BIOPESTICIDE PRODUCTION	100
